GOOD BUYING  
BOOSTS WHEAT

Sharp Advance in Prices  
Recorded in Pit At  
Winnipeg

WINNIPEG, Man., Nov. 26.—A strong rally, with exceptionally good buying recorded during the last few minutes of trading, brought a sharp advance in the wheat market today. Strength at Chicago influenced trading while several orders were responsible for higher prices at the opening.

The market was active throughout the session, though it was under heavy pressure at mid-day when values slumped only to rise again around the final 10 minutes trading. Commission houses and shorts were in the pit, while the pool was credited with selling and buying.

The close was strong, 1/4 to 1/2 cents higher, with November at 127 1/2, December at 127 1/2, and January at 127 1/2.

Trading in the cash wheat market was light. Current grain was under-estimated.

## NEW YORK STOCKS

NEW YORK, Nov. 26.—The upward movement of stock prices continued today. Buyers continued to respond to reports of rising active orders and persistent rumors of a possible rise in the price of gold.

A sudden report in Wall Street that the Federal Reserve bank had raised the discount rate to 4 1/2 percent, caused a sharp decline in the market.

International Harvester launched a new year's high at 129 1/2 and United States Steel closed at 149 for the first time in several months.

Auto stocks succeeded in overcoming a few weak spots in the automotive group. Ford Motor, General Motors, and Chrysler all advanced.
